

Germany Not So Hard Up Says Mr. Tabeling.

That Germany has 25,000,000 men not including the aged who are still allowed to draw their pension regardless of the war, and is just getting "warmed up" for a long fight is the statement of H. H. Tabeling of Essen, Germany, who arrived in Wichita Sunday. He declared that the number of men at the front could be increased at a minute's notice to any size of an army desired. The home guards are training but are not neglecting the work on farms or manufacturing, he asserted. Mr. Tabeling came to Wichita because his cousin, William Tabeling, a street car motorman, resides here and he expects to make this city his home.

Two days before he left Essen on January 23, his cousin was brought from the front, having been shot through the arm. The injured man is the only one of thirty of his male cousins who has been called to the front.

Mr. Tabeling is a naturalized American citizen and for that reason his presence in Germany was not desired by military authorities he explained. They did not order him to leave he hastened to say, but because he feared being taken for a spy, he decided to come to America. He spent twenty years in the United States before returning to his native land five years ago.

Regarding conditions in Germany, Mr. Tabeling would say little. He desired, however, to correct the impression that "Germany is starving." Crops, which are principally rye and wheat, have been taken care of by the home guards and without the aid of women he said. His kin are at home except the one who was injured, and he had gone to the front from choice.

He asserted that conditions are not normal but because of a well regulated finance department, taxes have not been increased as much as foreigners have been led to believe. Exaggerated reports have been circulated about how the war had stopped factories, leaving thousands of men out of work, and how people are starving.

Since the war began, the government officials have taken things in hand and as a result, instead of general consternation there is harmony and cooperation to an extent never before known among the German people.

Mr. Tabeling came to America by way of Rotterdam. He had little trouble except the necessary "red tape" in getting on a liner of the Rotterdam Steamship company. Officials paid great attention to his naturalization papers, he said, but they were not rejected.

The liner upon which he was a passenger, was piloted for nearly 500 miles by a German cruiser although the route lay in what is supposed to be neutral water. Through glasses could be seen whole squads of battle ships in the neighborhood of Rotterdam but the boat was never molested.

In proof of his statement that Germany is well prepared to "stay in the game," Mr. Tabeling told of the old age pension which the government pays its citizens after they reach 65 years. The father of H. H. Tabeling is 76 years old. His pension is sufficient for his needs and continues to

come, notwithstanding the fact that the nation is spending many million dollars a day in maintaining the army at the front and as much more in keeping the navy up to fighting trim.

Among numerous mementoes which Mr. Tabeling brought with him are three German coins minted in 1914. He gave them to his cousin for relics. One coin is a ten pfennig piece equal to about nine cents, and the other two are marks, (about twenty-four cents each.)

When asked what he expected to do in Wichita, Mr. Tabeling said he could not work at his trade, wood carving, but that he had had experience as a salesman of tea and coffee and is looking for employment in that line.

He came to Wichita from Cincinnati, Ohio, where he had once been employed, and where a cousin resides. He stopped in New York a week before coming west.

William Tabeling started to make a visit to his home last July but reached New York just in time to learn that war had been declared and all passenger lists cancelled.—Wichita Daily Eagle.

WATCH WORTH FULLY \$3,500

Finest Time-Piece in Kentucky
Result of Famous Medicine.

Louisville, April 29.—A very handsome watch is now on exhibit in this city.

The watch, which is the property of L. T. Cooper, the noted "Tanlac Man," is valued at \$3,500, maybe a little more. Forty seven flawless cut diamonds are imbedded in its gold case, not to mention its equipment of pigeon-blood ruby jewels. This beautiful time-piece is exquisitely embellished with ornamentation of foreign workmanship and contains the finest Swiss movements. It is really worth seeing.

According to Mr. Cooper, the watch came into his possession through the merit of Tanlac. It happened, so he says, about this way:

In one of the large cities visited by Mr. Cooper some time ago, the young son of a wealthy jeweler suffered from a complaint which had baffled physicians of the city and Eastern specialists. The boy was anaemic, listless and not at all playful and as lively as the other little fellows of his own age. The parent said that the child's appetite was irregular, at times ravenous and that he was extremely nervous and complained of a twitching sensation most of the time. Itching of the nose and dizziness were other symptoms enumerated by the jeweler.

"He asked me," said Mr. Cooper, "if I thought Tanlac would help his child. In reply, I stated that he could test the medicine on its own merits. The result was that he bought Tanlac for his son."

"Thinking nothing particularly of the incident, I was a little surprised a few months later to receive a letter from the jeweler, stating that Tanlac had relieved his son, who was now rosy and running about like the rest of the boys and asking me if I would accept a 'small token of his appreciation.' I answered his letter, telling him that while I would appreciate his gift, the fact that Tanlac had accomplished the right results in his child's case was sufficiently gratifying to me."

Shortly afterwards, this beautiful watch came. You can imagine my surprise. To me this gift is invaluable, because it bears a double meaning."

The famous medicine, Tanlac, can now be bought in Cloverport at Wed-ding's drug store and in Irvington at Irvington Pharmacy.
